

AAX_CUnitDisplayDelegate
Decorator::StringToValue

AAX_CDecibelDisplayDelegate
Decorator::StringToValue

AAX_CPercentDisplayDelegate
Decorator::StringToValue

AAX_CString::SubString

```
graph LR; A[AAX_CUnitDisplayDelegateDecorator::StringToValue] --> D[AAX_CString::SubString]; B[AAX_CDecibelDisplayDelegateDecorator::StringToValue] --> D; C[AAX_CPercentDisplayDelegateDecorator::StringToValue] --> D;
```

The diagram illustrates a common method call. Three decorator classes, each with a `StringToValue` method, are shown on the left. Arrows from each of these methods point to a single `SubString` method within the `AAX_CString` class on the right. The `AAX_CString::SubString` box is shaded gray, while the others are white with black borders.
