

AAX\_CLogTaperDelegate  
::NormalizedToReal

AAX\_CLogTaperDelegate  
::RealToNormalized

AAX::SafeLog

```
graph LR; A["AAX_CLogTaperDelegate::NormalizedToReal"] --> B["AAX::SafeLog"]; C["AAX_CLogTaperDelegate::RealToNormalized"] --> B;
```

The diagram illustrates a dependency or call relationship. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'AAX\_CLogTaperDelegate::NormalizedToReal' and the bottom box contains 'AAX\_CLogTaperDelegate::RealToNormalized'. On the right, there is a gray rectangular box with a black border containing the text 'AAX::SafeLog'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both methods of the AAX\_CLogTaperDelegate class call or depend on the AAX::SafeLog function.
